Response to First Office

Dear Sir:

In response to Office Action dated 03/27/2002, the Applicants respectfully request the Examiner to enter the following amendments before reconsidering the application.

In the Specification

1. The following paragraph replaces the original paragraph that begins line 15 and ends line 23 of page 4 of the Specification:

21
Another commonly used 3D modeling approach is a stereoscopic system employing one or more imaging systems located at known locations or distances from each other to take multiple images of a 3D object. The captured images are processed with a pattern recognition system that corresponds to the various points of the object in the multiple images and triangulates to extract depth
